

Beyond From Within brings the Psychedelic 1960s back to its roots with their new single 'Today Today'

Since The Beatles and Pink Floyd brought it into the mainstream, psychedelic music has had a significant impact on the music industry. Today, psychedelic music is re-emerging, with the rise of indie bands who use it as the basis for their compositions.

Beyond From Within is a psychedelic band bringing this music back to its abstract and artistic roots.

Beyond From Within consists of guitarist Steve Andrews, bassist Dino Pandolfo and drummer Nick Spagnolo. Together, they combine diverse influences and genres into their compositions, resulting in a unique melding of Psychedelic, Folk, Pop and Rock.

Beyond From Within is full of catchy pop with suitably psychedelic trappings, from swirling, backwards guitars to free-flowing keyboard flourishes, and is a must for the neophyte psychedelican.

Online reviewers have praised **Beyond From Within** for their musical composition, musicianship, and the ability to create thought-provoking, creative music and lyrics from within the studio.

Beyond From Within's original melodies and intimate lyrics take the listener on a soul-searching journey, with music that pushes cryptic boundaries.

The debut album from **Beyond From Within** is now available on Detour Records along with the fresh new single 'Today Today'. In the future, look out for the psychedelic/garage love song 'Love Whispers to be Free'.

The official **Beyond From Within** website is live so the band's followers can be notified of future developments and projects.
